## CANDY.

How it is Made and What it is Made of—  
The Kinds That Are Chiefly in Demand.

Boston Herald.

The confectionery trade in this country, which twenty years ago was comparatively unimportant, is to-day a great branch of important industry. A few years ago it was necessary to send abroad for the best qualities of confectionery; but now American manufacturers are exporting to the very foreign markets which formerly supplied us goods, that cannot be excelled anywhere in the world. But it is not of the finest kinds of sweets that this article is designed to treat. Some seven years ago the manufacture of low-priced confectionery was begun in this city, and it has attained gigantic proportions. The product is familiarly termed by retail confectioners "grocers' candy," as, to a great extent, it is retailed by grocers. Since these dealers have taken to selling it, the trade of the retail confectioners has suffered to a considerable extent. The grocer buys his goods at prices varying from 11 to 13 cents a pound, and retails them at from 13 to 18 cents a pound. Of course a man depending solely on confectionery could not do business and even pay his expenses on such prices and profits. Are these cheap candies pure? is a question often asked. If glucose, grape sugar and terra alba are pure, these goods are; if they are an adulteration, then these goods are not pure. The present writer remembers hearing of a contract made by a prominent firm for the delivery to them of a certain number of barrels of broken and mixed candy at 10½ cents per pound. At the same time granulated sugar (the kind all confectioners use) was quoted at 10½ cents by the twenty barrel (refiners') lot. How could the contract be carried out and the manufacturer get a profit, or even his money back? Let us illustrate. Take, for instance, a fifty-pound batch of "mixed drops."

IF MADE STRICTLY PURE,

the material would cost as follows, allowing the price of granulated sugar to be 10½ cents, which will be a fair average:

50 pounds granulated sugar at 10½ cents.....	\$5 13
Flavor (oil).....	25
Fire and shop rent.....	25
Labor, at \$2 per day.....	50

Cost of candy.....	\$6 13
Boxing.....	30
Delivery.....	10

Total.....\$6 53

Thus a pure drop mixture would cost a fraction over 13 cents a pound to make, without adding the manufacturer's profit. But the way the thing is done, is after this style:

25 pounds granulated sugar, at 10½ cents.....	\$2 57
25 pounds glucose, at 3½ cents.....	87
Flavor (extract).....	15
Fire and shop rent.....	25
Labor, at \$2 per day.....	50
Boxing and delivery.....	10

Total.....\$4 71

Which gives the cost of the same kind of candy 9½ cents per pounds. Another kind that will show the great difference in quality and make is chocolate caramels, and herewith are given the figures on a fifty-pound batch of, first, the best quality, and second, the poorer quality:

50 pound granulated sugar, at 10½ cents.....	\$5 13
1 pound butter.....	30
2 quarts cream (wholesale).....	30
8 pounds chocolate, 32 cents.....	2 56
Fire and shop rent.....	25
Labor, at \$2 per day.....	50
Boxing.....	10

Total.....\$9 71

This shows the cost to be about 17½ cents per pound, as such a batch as the above would turn out about fifty-five pounds. The cheaper way is this:

25 pounds brown sugar, at 8½ cents.....	\$2 17
25 pounds glucose, 3½ cents.....	88
2 quarts milk, at 5 cents.....	10
4 pounds chocolate, at 24 cents.....	96
Fire and shop rent.....	25
Labor, at \$2 per day.....	50
Boxing.....	10

Total.....\$5 53

Making the caramels cost a fraction over eleven cents per pound. In addition to this cost, caramels have to be wrapped

in wax paper, and are generally boxed in five-pound boxes. The expense of wax paper and labor in doing them up would be alike for both grades of goods. It should not be understood that glucose is used to the extent of half-and-half with sugar by all manufacturers who use it, but this illustration is given simply to show these low-priced candies can be made and sold at such low figures. When granulated sugar is worth ten and a half or eleven cents per pound, it must be clearly seen by any reasonable person that pure candy can not be made and sold at retail for twelve and a half cents per pound. Gum drops, such as are usually sold at the above price at retail, are known by confectioners as "A. B." gum-drops, and usually can be had for seven and a half or eight cents per pound in "barrel lots." These goods contain

VERY LITTLE SUGAR

Or gum arabic, the chief material used in the production being starch. Most retail confectioners are now employing their own help, and manufacturing at least two-thirds of the goods they sell. They find they can get up better styles, have the goods fresh made as often as they want them and in as small quantities as demand requires. What candy may be stale is readily made over again in some other style, and they suffer no loss. About three years ago caramels were the great craze; every confectioner was either making or advertising caramels. But, like all goods subjected to freaks of fashion, these fell off, until now they only "average regular" with other styles and kinds. They were made in different flavors—chocolate, vanilla, almond, walnut, Roman punch, cream, raspberry, lemon, and almost every kind known to the art of the confectioner. Chocolate creams have always, taken, and probably will always take, the lead on sales and demand for candy. They possess a delicate flavor, and, if a good article, are without an equal. The inside, or "cream," is made by slowly boiling the sugar to a certain degree (called grain sugar), and then pouring it on a marble, where it is worked with a "spaddle" until the desired substance is obtained. The small cones are then made in two ways, either by rolling with the hands (called "hand-made drops") or by again melting and running in the form, in starch. They are then coated with the chocolate, which varies in price from twenty-two cents to forty-five cents per pound. Gum-drops, wafer lozenges, cream-work (or French mixture), brandy drops and other varieties are all run in starch. The starch is pulverized and evenly laid in a wooden tray; small wood or plaster-paris patterns are then pressed into it, making the molds. The material is then poured in, and when ready the starch is sifted and the candy remains in the sieve. Molasses candy is pulled on a hook, and then cut off in lengths. "Boston chips" are made in precisely the same way, but pulled out from a heater in the long, thin ribbon shapes to be seen in the shop windows. Plain sugar is boiled and flavored just before taking from the fire, or just after it is turned on the lemon, hourhound, checkerberry, peppermint and oils, and, then either cut in "kisses" or run through a machine in drops. During the winter season goods are made expressly for

THE HOLIDAY TRADE.

Such as barley toys, canes, baskets and various other designs. Barley toys are made from pure sugar, and either run in lead molds or (by large manufacturers) cut by machinery. Baskets and canes are all hand-work. Candy toys are also made from sugar, flour, &c., and then painted to give them a more attractive appearance. The colorings used by confectioners are chiefly of vegetable origin, although most of the red tints are made by the use of cochineal, which is also used to give color to strawberry ice-cream. Our large cities now contain some fine establishments for the sale of confectionery at retail, and within the past five years Boston has added a large number of excellent stores in this line to her business enterprises.

## CANDY.

How it is Made and What it is Made of—  
The Kinds That Are Chiefly in Demand.

Boston Herald.

The confectionery trade in this country,  
which twenty years ago was comparatively  
unimportant, is to-day a great branch of  
important industry. A few years ago it was  
necessary to send abroad for the best qual-  
ities of confectionery; but now American  
manufacturers are exporting to the very  
foreign markets which formerly supplied  
us goods, that cannot be excelled any  
where in the world. But it is not of the  
finest kinds of sweets that this article is  
designed to treat. Some seven years ago  
the manufacture of low-priced confection-  
ery was begun in this city, and it has at-  
tained gigantic proportions. The product  
is familiarly termed by retail confectioners  
"grocers' candy," as, to a great extent, it  
is retailed by grocers. Since these dealers  
have taken to selling it, the trade of the  
retail confectioners has suffered to a con-  
siderable extent. The grocer buys his  
goods at prices varying from 11 to 13 cents  
a pound, and retails them at from 13 to 18  
cents a pound. Of course a man depend-  
ing solely on confectionery could not do  
business and even pay his expenses on  
such prices and profits. Are these cheap  
candies pure? is a question often asked.  
If glucose, grape sugar and terra alba are  
pure, these goods are; if they are  
an adulteration, then these goods are  
not pure. The present writer remembers  
hearing of a contract made by a prominent  
firm for the delivery to them of a certain  
number of barrels of broken and mixed  
candy at 10½ cents per pound. At the same  
time granulated sugar (the kind all con-  
fectioners use) was quoted at 10½ cents by  
the twenty barrel (refiners') lot. How  
could the contract be carried out and the  
manufacturer get a profit, or even his money  
back? Let us illustrate. Take, for in-  
stance, a fifty-pound batch of "mixed  
drops."

IF MADE STRICTLY PURE,

the material would cost as follows, allow-  
ing the price of granulated sugar to be 10½  
cents, which will be a fair average:

50 pounds granulated sugar at 10½ cents.....\$5 13  
Flavor (oil).....25  
Fire and shop rent.....25  
Labor, at \$2 per day.....50

Cost of candy.....\$6 13  
Boxing.....30  
Delivery.....10

Total.....\$6 53

Thus a pure drop mixture would cost a  
fraction over 13 cents a pound to make,  
without adding the manufacturer's profit.  
But the way the thing is done, is after this  
style:

25 pounds granulated sugar, at 10½ cents.....\$2 57  
25 pounds glucose, at 3½ cents.....87  
Flavor (extract).....15  
Fire and shop rent.....25  
Labor, at \$2 per day.....50  
Boxing and delivery.....10

Total.....\$4 71

Which gives the cost of the same kind  
of candy 9½ cents per pounds. Another  
kind that will show the great difference in  
quality and make is chocolate caramels,  
and herewith are given the figures on a  
fifty-pound batch of, first, the best quality,  
and second, the poorer quality:

50 pound granulated sugar, at 10½ cents.....\$5 13  
1 pound butter.....31  
2 quarts cream (wholesale).....31  
8 pounds chocolate, 32 cents.....2 50  
Fire and shop rent.....35  
Labor, at \$2 per day.....50  
Boxing.....10

Total.....\$9 71

This shows the cost to be about 17½ cents  
per pound, as such a batch as the above  
would turn out about fifty-five pounds.  
The cheaper way is this:

25 pounds brown sugar, at 8½ cents.....\$2 17  
25 pounds glucose, 3½ cents.....88  
2 quarts milk, at 5 cents.....10  
4 pounds chocolate, at 21 cents.....86  
Fire and shop rent.....35  
Labor, at \$2 per day.....50  
Boxing.....10

Total.....\$5 53

Making the caramels cost a fraction  
over eleven cents per pound. In addition  
to this cost, caramels have to be wrapped

in wax paper, and are generally boxed in  
five-pound boxes. The expense of wax  
paper and labor in doing them up would  
be alike for both grades of goods. It  
should not be understood that glucose is  
used to the extent of half-and-half with  
sugar by all manufacturers who use it, but  
this illustration is given simply to show  
these low-priced candies can be made and  
sold at such low figures. When granulated  
sugar is worth ten and a half or eleven  
cents per pound, it must be clearly seen by  
any reasonable person that pure candy  
can not be made and sold at retail for  
twelve and a half cents per pound. Gum  
drops, such as are usually sold at the  
above price at retail, are known by con-  
fectioners as "A. B." gum-drops, and usu-  
ally can be had for seven and a half or  
eight cents per pound in "barrel lots." These goods contain

VERY LITTLE SUGAR

Or gum arabic, the chief material used in  
the production being starch. Most retail  
confectioners are now employing their own  
help, and manufacturing at least two-thirds  
of the goods they sell. They find they can  
get up better styles, have the goods fresh  
made as often as they want them, and in  
as small quantities as demand requires.  
What candy may be stale is readily made  
over again in some other style, and they  
suffer no loss. About three years ago car-  
amels were the great craze; every con-  
fectioner was either making or advertising  
caramels. But, like all goods subjected  
to freaks of fashion, these fell off, until  
now they only "average regular" with  
other styles and kinds. They were made  
in different flavors—chocolate, vanilla,  
almond, walnut, Roman punch, cream,  
raspberry, lemon, and almost every kind  
known to the art of the confectioner.  
Chocolate creams have always, taken, and  
probably will always take, the lead on  
sales and demand for candy. They pos-  
sess a delicate flavor, and, if a good article,  
are without an equal. The inside, or  
"cream," is made by slowly boiling the  
the sugar to a certain degree (called grain  
sugar), and then pouring it on a marble,  
where it is worked with a "spaddle" until  
the desired substance is obtained. The  
small cones are then made in two ways,  
either by rolling with the hands (called  
"hand-made drops") or by again melting  
and running in the form, in starch. They  
are then coated with the chocolate, which  
varies in price from twenty-two cents to  
forty-five cents per pound. Gum-drops,  
wafer lozenges, cream-work (or French  
mixture,) brandy drops and other varie-  
ties are all run in starch. The starch is  
pulverized and evenly laid in a wooden  
tray; small wood or plaster-paris patterns  
are, then pressed into it, making the molds.  
The material is then poured in, and when  
ready the starch is sifted and the candy  
remains in the sieve. Molasses candy is  
pulled on a hook, and then cut off in  
lengths. "Boston chips" are made in pre-  
cisely the same way, but pulled out from a  
heater in the long, thin ribbon shapes to  
be seen in the shop windows. Plain sugar  
is boiled and flavored just before taking  
from the fire, or just after it is turned on  
the lemon, hoarhound, checkerberry, pep-  
permint and oils, and, and then either cut  
in "kisses" or run through a machine in  
drops. During the winter season goods  
are made expressly for

THE HOLIDAY TRADE,

Such as barley toys, canes, baskets and  
various other designs. Barley toys are  
made from pure sugar, and either run in  
lead molds or (by large manufacturers)  
cut by machinery. Baskets and canes are  
all hand-work. Candy toys are also made  
from sugar, flour, &c., and then painted to  
give them a more attractive appearance.  
The colorings used by confectioners are  
chiefly of vegetable origin, although most  
of the red tints are made by the use of  
cochineal, which is also used to give color  
to strawberry ice-cream. Our large cities  
now contain some fine establishments for  
the sale of confectionery at retail, and  
within the past five years Boston has ad-  
ded a large number of excellent stores in  
this line to her business enterprises.

## DAILY EVENING BULLETIN.

SATURDAY EVE., APRIL 29, 1882.

**TERMS:**—The EVENING BULLETIN is published daily, and served free of postage at 6 cents per week; 25 cents per month; 75 cents per three months; \$1.50 per six months, and \$3 per year, payable in advance.

**THE EVENING BULLETIN HAS A LARGER CIRCULATION IN THIS CITY, CHESTER AND ABERDEEN, OHIO, THAN ANY OTHER PAPER PUBLISHED IN MAYSVILLE.**

The Bourbon County Agricultural Association has decided not to attach a race course to the grounds.

GENERAL GRANT says he does not propose hereafter to recommend anyone for a government appointment.

The railroads in Texas are vigorously fighting the law passed by the Legislature fixing passenger rates at three cents per mile.

The Cincinnati Enquirer says, the support which the Smith law is getting from some of the distinguished drunkards of the Republican party is singularly ardent.

The prohibitionists of Iowa have made a careful canvass of the State and think they will be able to carry it for the prohibitory amendment by about 20,000 majority.

The Boston Half-Breeds assert that Worthington's nomination for collector of their port, is the payment of a debt by Arthur owed to Boutwell and that the President is quite willing to see him defeated in the Senate.

SOME of the circumstances attending the escape of Captain Howgate are peculiar. It closely resembles the flight of Tweed in his old prison days. There is an internal as well as an external likeness. Each had some business to attend to at home, presumably under guard, and each managed to get out of sight in the course of it. In each case, too, the escape of the prisoner was a matter of importance to others as well as to himself. The facts have not all come out regarding the extent and the manner of Howgate's embezzlement, but it is strongly suspected that other officials had a share with him in the crime.

Three roustlers from the steamer Paris C. Brown, from New Orleans were sent to the Memphis pest-house, Thursday, for treatment.

### A Request.

Having met with a disastrous accident on the 13th inst., and needing money badly, we earnestly request those indebted to the firm of G. W. Blatterman & Co., either by account or note, to call upon the undersigned and make payment without delay. (a25 law1w) L. C. BLATTERMAN.

The Cincinnati Enquirer says:

Messrs M. E. Ingals, President; J. D. Ellison, General Manager; Directors Lippencott, Cunningham, Bowler, Pendleton and Lewis, have returned from their Kentucky Central trip. The Kentucky Central has agreed to supply the Richmond and Three Forks Road, forty miles in length, with \$500,000 out of the \$900,000 capital requisite to complete the building, which will require two years' time, the work being very heavy. The road, which leads from Richmond into the mountains, will be an extension of the Kentucky Central to the Three Forks of the Kentucky River.

### Boiler Explosion at Carlisle.

A saw mill boiler on the farm of Benj. Gore near Carlisle, exploded about noon on Friday, killing Daniel Delaney, the engineer, and injuring several others. The mill belonged to Jas. Collier, of Millersburg. Too much steam was the cause of the disaster. The engineer tied stones to the escape valve to raise the steam higher. He was thrown several hundred feet, and fragments of the wreck were found a quarter of a mile away. Several persons near the scene of the accident had narrow escapes.

## NEWS BREVITIES.

Palmyra, Missouri, has a ten-year-old "fire bug."

Hon. J. C. Knapp, a prominent Iowa jurist, is dead.

A steamer from New York, takes out \$250,000 in gold.

Abe Nonneberg, formerly of Cincinnati, drowned himself at Frankfort, Ky.

In a billiard match at New York, Sexton defeated Schaeffer in a hard fought battle.

The Republican Convention of Tennessee unanimously renominated Gov. Alvin Hawkins.

Ralph Waldo Emerson died at his home at Concord, Mass., Thursday. He was born in 1803.

Fifteen American trotting horses from Detroit were sold in London for about \$7,535, averaging \$500.

The President and Cabinet had a brilliant military and naval reception at Fortress Monroe, Thursday.

Three more of the robbers who went through the Texas Pacific train at Ranger a few nights ago have been captured.

The marriage of Prince Leopold to Princess Helena, of Waldeck took place at St. George's Chapel, Windsor, Thursday.

The annual summer tournament of the Ohio Archery Association will be held on the grounds of the soldier's Home, Dayton.

While playing "Jesse James," a youth named Dufee shot and killed a playmate named Harry Wildman, at Glenwood Mill county, Iowa.

It is reported that the outlook through the State of Kentucky taken as a whole, is very promising, and crops bid fair to fully make up for the disastrous season of 1881.

The Kentucky Central railway has subscribed \$500,000—a controlling interest—to the capital stock of the Richmond and Three Forks road, which will be at once completed.

The safe of the burned steamer Golden City, was recovered at President's Island with its valuable contents in good order. It was recovered by Diver Graham in eighteen feet of water.

The High Court of the United Order of Foresters have completed a session at Columbus, Ohio, and elected officers. They decided to hold their next meeting at Akron the first Monday in May, 1883.

Dr. Lawson was hanged at London, on Friday, by Marwood, the famous executioner, for the murder of his brother-in-law whom he poisoned. The deed was done to enable his wife to inherit \$20,000.

At Lake City, Colorado, George Betts and Jim Brown were lynched for killing Sheriff Campbell while attempting to arrest them. An Indiana murderer was lynched on Stormy Creek, west of Colusa, California.

Arbor Day was celebrated in Cincinnati by the Forestry Congress by the planting of several groves in Eden Park. The weather was delightful, and it is estimated that fully thirty-five thousand people witnessed the exercise.

A fight occurred Wednesday, at Stein's Peak, N. M., between Indians and Capt. Tupper, of the Sixth Cavalry, and his Indian scouts. Four of the latter are reported killed, and two private soldiers. It is claimed that six of the hostiles were killed.

The control and a majority ownership of forty-three grain elevators of Messrs. Barnes & Magill, of Fargo, located along the Northern Pacific Railroad branches, in Minnesota and Northern Dakota, have been transferred to the Minneapolis Millers' Association.

A case of trichinosis is reported from Clyde, Kansas. A Ballinger killed a hog, of which the entire family ate and during the night all were seized with vomiting and all the symptoms of trichina. A son aged twelve years died during the night, and the rest of the family are in a dying condition, except Mrs. Ballinger, who may recover.

The most sensational point of the three days' examination of ex-Secretary Blaine at Washington was reached Thursday, when the witness told Mr. Belmont, who was examining him his construction of one of his instructions to Minister Hurlbut was untruthful, and Mr. Belmont told Mr. Blaine (reserving his reply to this assault on his veracity for private communication,) that he believed him to be a bully and a coward. Blaine struck the table with his fist and cried, "The insolence of the young man is astounding."

## PILES! PILES! PILES!

A Sure Cure Found at Last—No One Need Suffer!

A sure cure for blind, bleeding, itching and ulcerated, piles has been discovered by Dr. William, (an Indian remedy,) called Dr. Williams' Indian Ointment. A single box has cured the worst chronic cases of twenty-five or thirty years standing. No one need suffer five minutes after applying this wonderful soothing medicine. Lotions, instruments and electrics do more harm than good. Williams' Ointment absorbs the tumors, allays the intense itching, (particularly at night after getting warm in bed,) acts as a poultice, gives instant and painless relief, and is prepared only for piles, itching of the private parts, and nothing else.

Read what the Hon. J. M. Coffinberry, of Cleveland, says about Dr. Williams' Pile Ointment: "I have used scores of pile cures, and it affords me pleasure to say that I have never found anything which gave me such immediate and permanent relief as Dr. Williams' Indian Ointment."

For sale by George T. Wood or mailed on receipt of price, \$1.

HENRY & CO., Sole Prop'rs,  
62 Vesey Street, N. Y.

### Skin Diseases Cured

BY DR. FRAZIER'S MAGIC OINTMENT. Cures as if by magic, pimples, black head or grubs, blotches and eruptions on the face, leaving the skin clear, healthy and beautiful. Also cures: Itch, barber's itch, salt rheum, tetter, ring worm, scald head, chapped hands, sore nipples, sore lips, old obstinate ulcers and sores, &c.

### SKIN DISEASE.

F. Drake, Esq., Cleveland, O., suffered beyond all description from a skin disease which appeared on his hands, head and face, and nearly destroyed his eyes. The most careful doctoring failed to help him, and after all had failed he used Dr. Frazier's Magic Ointment and was cured by a few applications.

The first and positive cure for skin diseases ever discovered.

Sent by mail on receipt of price, fifty cents

HENRY & CO., Sole Prop'rs,  
62 Vesey Street, N. Y.

For blind, bleeding, itching or ulcerated piles. Dr. Williams' Indian Pile Ointment is a sure cure. Price \$1, by mail. For sale by George T. Wood, druggist.

### Dr. Frazier's Root Bitters.

Frazier's Root Bitters are not a dram-shop whisky beverage, but are strictly medicinal in every sense. They act strongly upon the liver and kidneys, keep the bowels open and regular, make the weak strong, heal the lungs, build up the nerves and cleanse the blood and system of every impurity.

For dizziness, rush of blood to the head tending to apoplexy, dyspepsia, fever and ague, dropsy, pimples and blotches, scrofulous humors and sores, tetter, ring worm, white swelling, erysipelas, sore eyes and for young men suffering from weakness or debility caused from imprudence, and to females in delicate health, Frazier's Root Bitters are especially recommended.

Dr. Frazier: I have used two bottles of your Root Bitters for dyspepsia, dizziness, weakness and kidney disease, and they did me more good than the doctors and all the medicine I ever used. From the first dose I took I began to mend, and I am now in perfect health, and feel as well as I ever did. I consider your medicine one of the greatest blessings.

Mrs. M. MARTIN, Cleveland, O.

Sold by George T. Wood at \$1 per bottle.

HENRY & CO., Sole Prop'rs,

62 Vesey Street, N. Y.

## GARDEN SEEDS.

**LOST! LOST! LOST!**—A good fit if you do not leave your orders with the Fifth Ward Tailor. mar3lt J. H. WEDDING.

## BATCHELDER'S

## Ventilated Egg Case.

Patented February 15, 1881.

Indispensable to Merchants Shippers And Producers.

The outside frame of this carrier contains five trays, held in place by fasteners at end of case, as seen in cut. These trays are constructed in reversible halves. The above cut shows one whole tray filled ready to be placed in case, each egg resting in its cardboard socket in such a manner as to be readily counted, candled, or transferred from tray to tray, or case to case, without rehandling.

For cold storage this case will store 60 dozen with racks made to receive the half trays, hence this is the cheapest storage case manufactured, saving largely in space.

The manner of holding the eggs on end prevents oscillation, adding, or breaking, and adds greatly to their freshness when carried long in storage. Size of 30 dozen No. 1 cases 25x12x14, weighs 20 pounds.

### PRICES IN CHICAGO.

Shipper's No. 1, 30 doz. Case with Filler's complete 65 Cents.  
Farmer's No. 1, 18 doz. Case with Filler's complete, 55 Cents.  
Cardboard Filler's for refilling 20 Cents.  
15 per cent. discount on lots of 100 cases.  
Batchelder's Egg Tester, 1 string 6 doz. at once, saves to buyers many times its cost each season. Price \$3.00.

By special arrangements made by the manufacturers of this case most Railroads will receive them as fourth class freight.

The 18 dozen case made especially for Farmer's use, sent to any address by express, with out mailing, with full directions for setting up, on receipt of 50 cents. Every Farmer and consumer should have one of these cases, it will save its cost every month. Agents wanted in every county. Address,

J. H. BATCHELDER,

(In ordering mention this paper.)  
J25-5nd&w 68 South Water St., Chicago.

Half col.	1.80	2.20	2.60	3.00	3.40	3.80
One col.	3.00	3.50	4.00	4.50	5.00	5.50

Local notices ten cents a line; subsequent insertions five cents a line.  
Wants, three lines, ten cents, subsequent insertions five cents.  
Special rates where advertisers use both the daily and weekly.  
One inch in the DAILY BULLETIN for one year costs \$5, and for six months but \$3.

The month has closed. The pedagogues  
The young idea training,  
Here present a list that shows,  
The little ones are gaining.  
There's little cause to use the rod,  
Or yet, the dunces stools,  
For every one is working hard,  
And all's well in the schools.

The grand jurors will finish their labors to-day.

The telegraph announces over ten feet of water at Pittsburg, which will let out a large run of coal.

A FINE quality of illuminating oil has been discovered in Boyd county, near Ashland, on the farm of Josephus Miller.

SERVICES at M. E. Church, South, Sunday, at 11 a. m., and 7 1/2 p. m. Subject for the evening service "The Transformation of Christ."

The steamer Potomac has been chartered by Cincinnati parties and will be used the coming season principally for excursion and picnic parties.

The circuit court is engaged to-day hearing the testimony for the defense in the case of Rice vs. the Maysville and Lexington Turnpike Company.

C. ED. NIPPERT has been transferred as express messenger from the Maysville road to a route from Covington to Huntington. His place is supplied by Henry Schwartz.

The entertainment by the Smith Family and the Decorative Sisters was well attended last night and proved to be very very interesting. The net amount realized was \$62.

CAPT. WASH. HONSHILL, it is reported, expects to put three steamers in the Cincinnati and Pomeroy trade, making with the Boston, Telegraph and Ohio, six in all in that line.

MR. TYRRE M. FULTON, the artist, has returned from a fishing excursion to Eagle and Three Mile creeks, and is now to be found at his studio. He reports a number of stirring adventures.

MR. SHELBY P. CAMPBELL, who for some years past has been a missionary in the whisky trade, has taken a place in the cold water army. He is now collector for the Maysville Water Company.

Among the sites named for the new post-office are Mr. Emile Martin's house at the corner of Second and Limestone streets, and the building on the corner of Third and Limestone streets now occupied as a meat store.

SEE elsewhere the announcement of Mrs. A. M. Dora, of Sardis. She has just received a large and well-selected stock of fashionable millinery goods to which she invites public attention. Prices are very low and satisfaction is guaranteed in every case.

## OUR PUBLIC SCHOOLS.

## The Cyclone in Lewis County.

The cyclone on the evening of the 26th inst., passed over the southwestern part of Lewis county and proved very destructive. Mr. Robert Taylor, who had the opportunity to make observations, says that two warm currents of air passed to the northwest and a cold one came from that direction meeting at Mr. Amos Means' farm and from there passed to the southeast. Another person says that the storm broke while the family of Mr. Means were at supper. One of the children who heard a curious rumbling sound, remarked that "the cars were coming." On going to the door a large funnel shaped cloud was observed to be passing which left a smoky and dirty trail. Several witnesses concur as to this cloud bounding along the ground and measuring in width from one to three hundred yards. There was no wind or rain attending its passage. It seemed to be the advance guard of the furious storm that followed.

In a twinkling Mr. Means' barn was demolished killing Mambrino King a noted stallion valued at \$500, and a fine Spanish jack worth about \$300. The orchard was instantly uprooted and a large amount of fencing swept away. Sheriff Wilson, and others who inspected the damage, estimate Mr. Means' loss at from \$1,500 to \$2,000.

The dwelling of Mr. James Bivens was totally destroyed. Even the heavy stone chimneys were blown down and the fragments of the house carried over the mountains. Beds, bedding, and other articles lodged in the tops of the high trees. One report says that the roof of the house dropped in Capt. Dick Thomas' yard one mile away.

An old distillery and barn near by met a similar fate, but the saddest feature of the whole was the injury received by Mrs. Bivens. She had both legs and her left arm broken. Dr. Taylor who is attending her says she cannot survive. The other members of the family were more or less injured. They are now homeless and destitute. A subscription was taken up for their benefit and a liberal sum of money raised.

A fine barn belonging to John Applegate also went down before the fury of the storm. His crop of tobacco stored in the building was carried away and lost.

Turner Rayburn had two good barns destroyed and lost his entire crop of tobacco.

On the track of the cyclone were found many birds, squirrels, rabbits etc., that had been killed by the force of the winds. From the Cabin Creek valley the storm rose to the Kinny hills, and on the Salt Lick ridges houses, barns, timber and fencing were carried away or leveled to the ground. The loss is great in many places.

LATER.

Information received this morning announces the death of Mrs. Bivens yesterday, and also that a little girl named Dwyre was killed by the destruction of a house on Kinniconick Creek. It is feared the disaster is much more serious and the destruction more widespread than reported.

REV. S. B. ALDERSON preaches at the chapel to-morrow morning and evening. Morning subject—Idolatry.

THE White Collar Line of steamers has notified their men of a reduction of wages, to take effect May 1st. The reduction is as follows: Captains and head clerks, \$35; pilots, \$25; engineers, \$10; watchmen and mates, \$10 each, per month.

## PERSONALS.

### Points About People Here and Elsewhere.

Mr. Sam. Smith has returned from a flying visit to Covington, strictly on business.

Miss Lottie Collier and Miss Lida Johnson, of Millersburg, are the guests of Mrs. B. F. Johnson.

Mr. J. C. Lovell, of East Maysville, has removed to the dwelling lately occupied by George Hancock.

## Down They Go.

Meaning the prices of job printing. The following low rates will hereafter rule at the BRADEN Job Printing Rooms. They are the lowest ever offered in this city by any printing establishment. The reduction does not mean careless printing and inferior stock, but on the contrary first-class press work and composition and the best quality of material:

Bill Heads per ream	\$5.00
Letter Heads per ream	4.50
Packet Note Heads per ream	3.00
Commercial Note Heads per ream	2.75
Envelopes per thousand	3.00
Visiting Cards, fifty	25c

And other printing at proportionately low prices.

## A. B. GREENWOOD, House and Sign Painter.

Paper Hanger, Grainer, Glazier, &c. Order left at George F. Wood's drug store will be promptly attended to. All work warranted. Charges reasonable.

### The Brooksville Lynching.

Special to the Cincinnati Commercial

Augusta, Ky., April 27.—On last Saturday, while at a log-rolling, William and Bradford Courts raised a quarrel with James and John Smith, near Fairview, in this county, over a cow which the Courts boys had shot and wounded badly for Mrs. Smith, mother of the Smiths. Sharp words ensued, when James Smith and William Courts got into a fight. They were separated, but Smith got hold of a hand-spike and attempted to strike Wm. Courts, when Bradford Courts drew his pistol and shot and killed James Smith.

Courts made his escape. The officers and some citizens pursued them to the Courts residence where they found a large quantity of stolen goods and property belonging to the neighbors. On closer examination they found a trap door in the floor. On raising it they found Bradford Courts with ample provisions to last him some time with another large lot of flour and corn and goods which were identified. The boys were taken to the county jail on Monday night. Bradford waived examination without bail. William was to have his examination to-day.

A mob of from thirty to one hundred men entered the town of Brooksville last night, and quietly went to the jail, and after presenting a dozen or more revolvers to the jailer's head he gave up the keys, and the mob unlocked the jail, took the Courts boys out and left the town so quietly the citizens did not know until this morning that they had been in town. The mob took the Courts boys about half a mile from town, hung them on one limb of a tree, and left them in each other's embrace. They were a terror to all of the neighborhood, they were outlaws of the worst character, but our people are indignant at mob violence. The age of the Courts boys was respectfully twenty-four and nineteen. They were steeped in crime to be so young.

Novel ornaments for bouquets and hats are of gold, silver, or amber, and include birds, clasps, crescents, silver ferns, thistles and antique medallions, connected with slender chains, long pins and poignards with odd Roman or Grecian heads and stars, moons and fishes in fine filagree. Five differently shaped pins are sometimes thrust into the crown and trimmings of one French Capote. Old-fashioned trinkets are much sought after, and old gold or silver brooches, buckles, clasps or chatelaines, having any look of antiquity about them, command very high prices. Very elegant jeweled chatelaines are much worn with handsome evening toilets, these being utilized for fan and programme attachments. Chatelaines from which the watch is suspended are not fashionably worn with full dress toilets, even when made of heavy material.

Limacast steam should not be discharged into a brick chimney; the steam will disintegrate the mortar, and the chimney be injured.

A FLEXIBLE paint for canvass is made as follows: Yellow soap, 2½ pounds; boiling water, 1½ gallons; dissolve; grind the solution while hot with 125 pounds of good oil paint.

A SERIES of tests at the Farming Steel Works, France, on the resistance of steel wire to tensile and torsile strains, have conclusively shown that steel is superior to iron for wire ropes.

English steel castings are made by some firms from old files in connection with other material, and are said to be sound and very strong. It is said that the excess of carbon in the stock is found to be no disadvantage.

Ordinary American railway cars weigh as follows: A sleeping car of the usual pattern, about 66,999 pounds; a drawing-room car, 63,900 pounds; a passenger car, 55 feet long, 42-inch wheels, and four-wheel trucks, weighs 45,310 pounds.

A SINGLE plate of perforated zinc, about a foot square, suspended over a gas jet, is said to retain the noxious emanations from the burning gas, which it is well known, destroys the bindings of books, tarnishes the gilding and vitiates the atmosphere for breathing.

A NEW speed indicator, called the strathmograph, for indicating the speed of locomotives, has been introduced on the Hanoverian railroads. By it the engineer can read from a scale the actual speed of his locomotives at any moment, besides a record of the trip kept on a strip of paper.
